

Cowboys North Star

If you're looking for a boar with a wide base, big hip, and packed with muscle without giving up performance and eye appeal North Star is your guy!

His maternal side has been a no miss deal, great mothers and big litters, with fast growing, great looking pigs. The range of this boar's ability to improve the Hereford breed needs to be explored and proven! Oh yeah, did we mention docility and ease of handling? North Star has got that too!
